INDEX to Proceedings

AMERICAN CONCRETE INSTITUTE

VOLUME 61—1964

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, Proceedings V. 61, Jan. 1964 to Dec. 1964 and Part 2, Mar. and Part 2, June 1965

Original contributions to the JOURNAL OF THE AMERICAN CONCRETE INSTITUTE—Papers, reports, and discussions—are indexed in three categories:

1. Title ..... **Biaxial eccentricities in ultimate load design** (61-19) A. Aas-Jakobsen Mar. 1964 293

2. Author ..... **Aas-Jakobsen, A.**—Biaxial eccentricities in ultimate load design (61-19) Mar. 1964 293

3. Subject ..... **Column**—Biaxial bending—Ultimate strength (61-19) Mar. 1964 293

Numbers in parentheses with each entry constitute the title number of the article. The first portion indicates the number of the *Proceedings* volume (in this case V. 61) in which the topic appears. The month and year indicate the JOURNAL issue. Page number of both *Proceedings* and JOURNAL are the same.

Concrete Briefs items, Problems and Practices items, and original material appearing in the Current Reviews section carry an identifying (61-CB), (61-P&P), or (61-CR) wherever they are entered in the index.

Penetration test—Vibration method—Apparatus (61-CB) Jan. 1964 108

Footing—Isolated square—Design (61-P&P) July 1964 889

Prestressed tank—Design and construction (61-CR) July 1964 892

The index to Current Reviews published in this volume begins on p. 1861.

The index to technical material published in the "News Letter" sections (not a part of or bound with the *Proceedings*) is found on p. 1873. This index is included for the convenience of readers who retain the monthly issues.

A

Aas-Jakobsen, A.—Biaxial eccentricities in ultimate load design (61-19) Mar. 1964 293

Aass, Asbjorn, Jr.—Disc. Computer analysis of cylindrical shells (61-33) Dec. 1964 1639

Abolitz, A. L.—Disc. Tensile strength of concrete affected by uniformly distributed and closely spaced short lengths of wire reinforcement (61-38) Dec. 1964 1651

ACI standard recommended practice for concrete inspection (ACI 311-64) (61-42) ACI Committee 311, July 1964 753

Admixture—Calcium chloride—Cement paste reaction (61-63) Oct. 1964 1261

Agbim C. C.
-Disc. Increasing the tensile strength of terrazzo (61-21) Sept. 1964 1225
-Disc. Tensile strength of concrete affected by uniformly distributed and closely spaced short lengths of wire reinforcement (61-38) Dec. 1964 1652

Aggregate
-Coarse—Shear bond strength (61-52) Aug. 1964 939
-Lightweight fines—Sand replacement (61-45) July 1964 779
-Mix proportioning tables (61-2) Jan. 1964 45
-Shell structures—Committee report (61-59) Sept. 1964 1091

Air entrainment
-Beam—Durability (61-47) July 1964 .. 811
-Prestressed beam—Durability (61-47) July 1964 811

Alexander, K. M.—Disc. Shear bond strength between coarse aggregate and cement paste or mortar (61-52) Part 2 Mar. 1965 1705

Amarakone, A. M. N.—Disc. Load-moment curvature characteristics of reinforced concrete cross sections (61-44) Part 2 Mar. 1965 1673

Anchorage—Precast concrete—Committee report (61-51) Aug. 1964 921

Approximate analysis of shear walls subject to lateral loads (61-41)
-Riko Rosman June 1964 717
-Disc. Hsien-san Tsang and author Dec. 1964 1659

Apron design for Port of Seattle's Pier 28—Symposium abstract, SP-8 (61-CR) Wheeler H. Rucker, Jr. July 1964 892

Aqueous environments—Concrete affected by (61-CR) July 1964 892

Asbestos fiber—Terrazzo—Tensile strength (61-21) Mar. 1964 335

Aschenbrenner, Rudolf—Disc. Concrete shell structures—Practices and commentary (61-59) Part 2 Mar. 1965 1755

Auditorium—Buttressed dome—Construction (61-31) May 1964 509

B

Baron, Frank—Disc. Concrete shell structures—Practices and commentary (61-59) Part 2 Mar. 1965 1755

Batch plant—Inspection—Check list (61-36) June 1964 625

Beam
-Air entrainment—Durability (61-47) July 1964 811
-Cantilever—Perpendicular mutually supported—Design (61-14) Feb. 1964 .. 231
-Composite — Creep — Shrinkage — Deflection (61-13) Feb. 1964 213
-Cost—Optimum design (61-27) Apr. 1964 419
-Cyclic load—Moment-curvature (61-56) Aug. 1964 1021
-End block—Post-tensioned—Test (61-35) May 1964 589
-High strength steel—Stress-strain curve (61-26) Apr. 1964 399
-I-section—Trapezoidal stress distribution (61-CB) Feb. 1964 103
-Prestressed—Damping behavior—Dynamic loading (61-61) Sept. 1964 1125
-Prestressed—Dynamic properties (61-68) Nov. 1964 1359
-Prestressed—Moment-curvature relation (61-49) July 1964 871
-Rectangular—Optimum design (61-27) Apr. 1964 419
-Rectangular—Trapezoidal stress distribution—Ultimate moment (61-CB) Jan. 1964 103
-Shear-compression failure (61-75) Dec. 1964 1535
-Short-time load history—Cylic load (61-56) Aug. 1964 1021
-Singly reinforced—Cyclic load (61-56) Aug. 1964 1021
-Specimen—Bond strength (61-6) Feb. 1964 129
-T-beam—CEB code requirements (61-3) Jan. 1964 57
-T-beam—Optimum design (61-27) Apr. 1964 419
-T-beam—Trapezoidal stress distribution (61-CB) Jan. 1964 103
-Ultimate strength in bending and torsion (61-73) Dec. 1964 1509
-Ultimate strength in bending and torsion—Longitudinal bars only (61-71) Nov. 1964 1453
-Variable stiffness—Deflection—Finite differences method (61-15) Feb. 1964 . 239
-Wire reinforcement—Tensile strength (61-38) June 1964 657

Behavior of concrete columns reinforced with high strength steels (61-40) Claudio E. Todeschini, Albert C. Bianchini, and Clyde E. Kesler June 1964 . 701

Behavior of mortar filled steel tubes in compression (61-64)
-Harold J. Salani and James R. Sims Oct. 1964 1271
-Disc. R. Park, Robert M. Olson and Don L. Ivey Part 2 June 1965 1773

Behavior of reinforced concrete frames subjected to repeated reversible loads (61-66)
-Vitelmo V. Bertero and George McClure Oct. 1964 1305
-Disc. George Winter Part 2 June 1965 1793

Bending combined with torsion
-Beam (61-73) Dec. 1964 1509
-Beam—Longitudinal bars only (61-71) Nov. 1964 1453

Bertero, Vitelmo V.—Behavior of reinforced concrete frames subjected to repeated reversible loads (61-66) Oct. 1964 1305
-Closure (61-66) Part 2 June 1965 1793

Bianchini, Albert C.—Behavior of concrete columns reinforced with high strength steels (61-40) June 1964 701

Biaxial eccentricities in ultimate load design (61-19) A. Aas-Jakobsen Mar. 1964 293

Block—See Masonry units

Bolt—Foundation—Design (61-11) Feb. 1964 189

Bond—Mortar—Masonry units (61-70) Nov. 1964 1411

Bond strength
–Aggregate and mortar—Cracking (61-52) Aug. 1964 939
–Beam specimens—Slip measurement (61-8) Feb. 1964 129
–Reinforcement—Design (61-P&P) May 1964 603

Bond to aggregate—Mortar—Cracking (61-52) Aug. 1964 939

Bonnelly G., Rafael—Disc. Free-standing stairs (61-48) Part 2 Mar. 1965 1689

Boston, Lawrence A.—Ultimate strength in combined bending and torsion of concrete beams containing only longitudinal reinforcement (61-71) Nov. 1964 1453

Boundy, C. A. P.
–Rapid field assessment of strength of concrete by accelerated curing and Schmidt rebound hammer (61-4) Jan. 1964 77
–Closure (61-4) Sept. 1964 1188

Bracket—Precast concrete—Committee report (61-51) Aug. 1964 921

Bradshaw, Richard R.—Precast concrete toroidal vault (61-16) Mar. 1964 257

Branson, Dan E.
–Time-dependent effects in composite concrete beams (61-13) Feb. 1964 213
–Closure (61-13) Sept. 1964 1209

Bray, Lyman S.
–Check list for batch plant inspection (61-36) June 1964 625
–Closure (61-36) Dec. 1964 1647

Breen, John E.—Restrained long concrete column as a part of a rectangular frame (61-34) May 1964 563

Brendel, Gottfried—Strength of the compression slab of T-beams subject to simple bending (61-3) Jan. 1964 57

Bridge
–Floating—Construction (61-CR) July 1964 892
–Pontoon—Construction (61-CR) July 1964 892
–Railway—Design—Japan (61-72) Dec. 1964 1489

Brock, Geoffrey—Disc. The riddle of shear failure and its solution (61-28) Dec. 1964 1587

Broms, Bengt B.
–Shear bond strength between coarse aggregate and cement paste or mortar (61-52) Aug. 1964 939
–Closure (61-52) Part 2 Mar. 1965 1705
–Stress distribution, crack patterns, and failure mechanisms of reinforced concrete members (61-75) Dec. 1964 1535
–Closure (61-75) Part 2 June 1965 1841

Brondum-Nielsen, Troels—Disc. Concrete shell structures—Practices and commentary (61-59) Part 2 Mar. 1965 .. 1755

Brotchie, John F.
–Flat plate structures (61-53) Aug. 1964 959
–Closure (61-53) Part 2 Mar. 1965 1715

Brown, Thane E.—Handling and driving prestressed concrete piles—Symposium abstract, SP-8 (61-CR) July 1964 892

Buchanan, George R.
–Ultimate strength in combined bending and torsion of concrete beams containing both longitudinal and transverse reinforcement (61-73) Dec. 1964 1509
–Closure (61-73) Part 2 June 1965 1821

Buckling—Mortar filled steel tube—Ultimate load (61-64) Oct. 1964 1271

C

Calcium chloride—Cement paste—Chemical reaction (61-63) Oct. 1964 1261

Canal
–Construction joint (61-CR) July 1964 . 892
–Joint sealants (61-CR) July 1964 892

Candela, Felix—Disc. Concrete shell structures—Practices and commentary (61-59) Part 2 Mar. 1965 1755

Cantilever beam—Perpendicular mutually supported—Torsion—Design (61-14) Feb. 1964 231

Cantilever staircase—Analysis—Design (61-48) July 1964 847

Carbonation—Masonry unit—Expanded slag with fly ash (61-60) Sept. 1964 ... 1109

Carbonation and shrinkage studies of nonplastic, expanded slag concrete containing fly ash (61-60)
–George W. Washa and Richard L. Fedell Sept. 1964 1109
–Disc. Shu-t'ien Li, C. E. Lovewell, and authors Part 2 Mar. 1965 1767

Cement factor—Mix proportioning tables (61-2) Jan. 1964 45

Cement paste
–Calcium chloride—Chemical reaction (61-63) Oct. 1964 1261
–Coarse aggregate—Shear bond strength (61-52) Aug. 1964 939

Chandrasekhar, C. S.
–Disc. Load-moment-curvature characteristics of reinforced concrete cross sections (61-44) Part 2 Mar. 1965 1673
–Disc. Suggested design of joints and connections in precast structural concrete (61-51) Part 2 Mar. 1965 1697

Chang, Wen F.—Disc. Load-moment-curvature characteristics of reinforced concrete cross sections (61-44) Part 2 Mar. 1965 1673

Check list for batch plant inspection (61-36)
–Lyman S. Bray and Oswin Keifer, Jr. June 1964 625
–Disc. Jack Holleb, E. L. Howard, and authors Dec. 1964 1647

Chimney—Foundation—Design (61-39) June 1964 673

Chimney foundations (61-39)
–John W. Smith and Max Zar June 1964 673
–Disc. W. Nerlich Dec. 1964 1657

Chinn, James—Disc. On the formula for spiral reinforcement (61-23) Sept. 1963 1241

Clough, Ray W.
–Cracking in Norfolk Dam (61-17) Mar. 1964 265
–Closure (61-17) Sept. 1964 1218

Coefficient of variation—Compression test—Committee report (61-57) Sept. 1964 1057

Cohen, Edward—Ultimate strength design of reinforced concrete columns—Symposium abstract, SP-7 (61-CR) July 1964 891

Collins, M. P.—Disc. Ultimate strength in combined bending and torsion of concrete beams containing both longitudinal and transverse reinforcement 61-73) Part 2 June 1965 1821

Column
–Biaxial bending—Ultimate strength (61-19) Mar. 1964 293
–Design tables—Abstract SP-7 (61-CR) July 1964 891
–Dynamic test—Ultimate load (61-20) Mar. 1964 317
–High strength steel—Interaction curve (61-26) Apr. 1964 399
–High strength steel—Tie influence (61-32) May 1964 521
–High strength steel—Ultimate strength (61-40) June 1964 701
–Interaction curve—Ultimate strength (61-34) May 1964 563
–Interaction diagrams—Abstract SP-7 (61-CR) July 1964 891
–Long—Part of rectangular frame (61-34) May 1964 563
–Mortar filled steel tube—Buckling (61-64) Oct. 1964 1271
–Rectangular—Tie influence (61-32) May 1964 521
–Spiral reinforcement—Proposed equation (61-23) Mar. 1964 351
–Static test—Ultimate load (61-20) Mar. 1964 317
–Tied—High strength steel (61-40) June 1964 701
–Tied—Optimum design (61-27) Apr. 1964 419
–Tied—Restrained long—Test (61-34) May 1964 563
–Ultimate strength design—Interim committee report (61-CR) July 1964 891

Committee
–116 report
Glossary of terms on cement and concrete technology—Increments No. 2, 3, and 4 (61-30) May 1964 478
Glossary of terms on cement and concrete technology—Increment No. 6 (61-50) Aug. 1964 913
–214 report
Proposed revision of recommended practice for evaluation of compression test results of field concrete (ACI 214-57) (61-57) Sept. 1964 1057
Closure (61-57) Part 2 Mar. 1965 1741
–311—ACI standard recommended practice for concrete inspection (ACI 311-64) (61-42) July 1964 753
–315 report
Proposed revision to ACI standard—Manual of standard practice for detailing reinforced concrete structures (ACI 315-57) (61-58) Sept. 1964 1073
Closure (61-58) Part 2 Mar. 1965 1741
–334 report
Concrete shell structures—Practice and commentary (61-59) Sept. 1964 . 1091
Closure (61-59) Part 2 Mar. 1965 1775
–340 report—Ultimate strength design of reinforced concrete columns—Abstract, SP-7 (61-CR) July 1964 891
–408 report—A guide for determination of bond strength in beam specimens (61-6) Feb. 1964 129
–512 report
Suggested design of joints and connections in precast structural concrete (61-51) Aug. 1964 921
Closure (61-51) Part 2 Mar. 1965 1697
–533 report, Subcommittee V—Tests for precast wall panels (61-24) Apr. 1964 . 369

Composite beam—Creep—Differential shrinkage (61-13) Feb. 1964 213
Composite wall—Point supported—Stress analysis (61-46) July 1964 795
Compression test—Field concrete evaluation—Recommended practice—Committee report (61-57) Sept. 1964 1057
Compressive strength
–Capped cylinders—Test (61-18) Mar. 1964 287
–Cube—Schmidt rebound hammer (61-4) Jan. 1964 77
–Cyclic loading—Stress-strain curve (61-12) Feb. 1964 195
–Cylinder test—Research (61-8) Feb. 1964 151
–Mortar filled steel tube—Ultimate load (61-64) Oct. 1964 1271
–Schmidt rebound hammer—Concrete cube (61-4) Jan. 1964 77
–Waxed paper mold—Test (61-18) Mar. 1964 287

Computer
–Cylindrical shell—Analysis (61-33) May 1964 539
–Load-moment curvature characteristics (61-44) July 1964 763
–Reinforcement detailing—Committee report (61-58) Sept. 1964 1073

Computer analysis of cylindrical shells (61-33)
–A. C. Scordelis and K. S. Lo May 1964 539
–Disc. Asbjorn Aass, Jr., G. H. Powell, and authors Dec. 1964 1639

Concrete in aqueous environments, SP-8—Symposium abstract (61-CR) July 1964 892
Concrete pontoons for marinas—Symposium abstract, SP-8 (61-CR) H. Morgan Noble July 1964 892
Concrete shell structures—Practice and commentary (61-59)
–ACI Committee 334 Sept. 1964 1091
–Disc. Anton Tedesko, Rudolf Aschenbrenner, Frank Baron, Troels Brondum-Nielsen, Felix Candela, Ignacio Martin, Mario G. Salvadori, W. Zerna, and Committee Part 2 Mar. 1965 1755
Connection—Precast concrete—Committee report (61-51) Aug. 1964 921
Construction and Performance of Hood Canal floating bridge—Symposium abstract, SP-8 (61-CR) Charles C. Nichols July 1964 892
Construction of a buttressed dome segment (61-31) Andrew R. Nasser May 1964 509
Continuity of prismatic northlight sheds through their window planes (61-55) Amin Ghali Aug. 1964 1009
Copeland, R. E.—Tests of structural bond of masonry mortars to concrete block (61-70) Nov. 1964 1411
Corbetta, Roger H.—Responsibility in concrete (61-29) May 1964 481
Corrosion—Electrolysis—Cathodic protection—Steel potential (61-10) Feb. 1964 171

Cover—Shell reinforcement—Committee report (61-59) Sept. 1964 1091

Cracking
–Beam—Diagonal tension (61-75) Dec. 1964 1535
–Beam—Wire reinforcement (61-38) June 1964 657
–Cement paste and coarse aggregate (61-52) Aug. 1964 939
–Slab—Welded wire fabric (61-54) Aug. 1964 997
–Stress analysis—Norfork Dam (61-17) Mar. 1964 265
–Terrazzo—Glass fiber (61-21) Mar. 1964 335
–Water-holding structures—Repair (61-CR) July 1964 892

Cracking in Norfork Dam (61-17)
–F. W. Sims, James A. Rhodes, and Ray W. Clough Mar. 1964 265
–Disc. Douglas McHenry and N. W. Hanson, and authors Sept. 1964 1213

Creep—Composite beam (61-13) Feb. 1964 213

Cusens, A. R.
–Helicoidal staircase study (61-5) Jan. 1964 85
–Closure (61-5) Sept. 1964 1195
–Strength of concrete test cylinders cast in waxed paper molds (61-18) Mar. 1964 287
–Closure (61-18) Sept. 1964 1222
–Disc. Free-standing stairs (61-48) Part 2 Mar. 1965 1689

Cyclic load
–Frame—Deflection (61-66) Oct. 1964 .. 1305
–Singly reinforced beam—Bending theory (61-56) Aug. 1964 1021

Cyclic loading—Stress-strain curve—Concrete cylinders (61-12) Feb. 1964 .. 195

Cylinder, Test
–Compressive strength—Research (61-8) Feb. 1964 151
–Cyclic loading—Compressive strength (61-12) Feb. 1964 195
–Stress-strain curve—Equation (61-22) Mar. 1964 345
–Waxed paper mold—Compressive strength (61-18) Mar. 1964 287

Cylindrical shell—Computer analysis (61-33) May 1964 539

D

Dam
–Cracking—Norfork Dam (61-17) Mar. 1964 265
–Joint—Construction (61-CR) July 1964 892
–Stress analysis—Norfork Dam (61-17) Mar. 1964 265

Damping
–Prestressed and reinforced beam—Ultimate strength (61-68) Nov. 1964 1359
–Prestressed beam—Resonance curves (61-61) Sept. 1964 1125

Damping characteristics of prestressed concrete (61-61)—Joseph Penzien Sept. 1964 1125

Deflection
–Beam—Variable stiffness—Finite differences method (61-15) Feb. 1964 ... 239
–Composite beam—Shored and unshored beams (61-13) Feb. 1964 213
–Frame—Cyclic load (61-66) Oct. 1964 . 1305

Desayi, Prakash
–Equation for the stress-strain curve of concrete (61-22) Mar. 1964 345
–Closure (61-22) Sept. 1964 1227

Design of isolated square column footing (61-P&P) Carlos Rodriguez July 1964 889

Design of isolated square column footing (61-P&P) Manel Portal Dec. 1964 . 1559

De Simone, Vincent—Disc. Slip forming New York State World's Fair Pavilion (61-43) Part 2 Mar. 1965 1669

Detailing manual—Committee report—Revision of Standard (61-58) Sept. 1964 1073

Diagonal tension—Beam—Failure mechanism (61-28) Apr. 1964 441

Dowel—Precast concrete—Committee report (61-51) Aug. 1964 921

Dundurs, J.—Stresses around circular inclusions due to thermal gradients with particular reference to reinforced concrete (61-74) Dec. 1964 1523

Durability
–Beam—Air entrainment (61-47) July 1964 811
–Wall panel—Test (61-24) Apr. 1964 .. 369

Durability and behavior of pretensioned beams (61-47) Edwin C. Roshore July 1964 811

Dynamic loading
–Column—Ultimate load (61-20) Mar. 1964 317
–Frame—Ultimate strength (61-66) Oct. 1964 1305
–Plain and reinforced column—Test (61-20) Mar. 1964 317
–Prestressed and reinforced beam—Damping behavior (61-68) Nov. 1964 1359
–Prestressed beam—Damping behavior (61-61) Sept. 1964 1125

Dynamic properties of reinforced and prestressed concrete structural components (61-68)
–Merlin L. James, Loren D. Lutes, and Gerald M. Smith Nov. 1964 1359
–Disc. T. Katow, and N. Norby Nielson – Part 2, June 1965 1799

Dynamic tests of reinforced concrete columns (61-20) Kenneth F. Reinschmidt, Robert J. Hansen, and Cheng Y. Yang Mar. 1964 317

E

Economic aspects in the design of some reinforced concrete structural members (61-27) Dudley G. Norman Apr. 1964 . 419

Electrochemical behavior of steel in concrete (61-10) D. A. Hausmann Feb. 1964 171

Electrolysis—Corrosion—Cathodic protection (61-10) Feb. 1964 171

Elstner, Richard C.—Shear strength of reinforced structural lightweight aggregate concrete slabs (61-37) June 1964 . 643

Embedment—Reinforcing bar—Bond strength (61-6) Feb. 1964 129

End block—Post-tensioned beam—Stress analysis (61-35) May 1964 589

Engineering features of free-form concrete thin shell for Eastman Kodak Pavilion (61-62) Lev Zetlin Oct. 1964 1249

Equation for the stress-strain curve of concrete (61-22)
–Prakash Desayi and S. Krishnan Mar. 1964 345
–Disc. A. Kabaila, Luis P. Saenz, Leonard G. Tulin and Kurt H. Gerstle, and authors Sept. 1964 1227

Everard, Noel J.—Ultimate strength design and reinforced concrete columns—Abstract, SP-7 (61-CR) July 1964 891
Experiences with the Kelly ball test (60-CB)
–Karol Komlos June 1963 791
–Disc. V. M. Malhotra and author (61-CB) Jan. 1964 111

F

Failure
–Mechanism—Beams with longitudinal and transverse reinforcement (61-73) Dec. 1964 1509
–Mechanism—Shear-compression (61-75) Dec. 1964 1535
Fedell, Richard L.
–Carbonation and shrinkage studies of nonplastic, expanded slag concrete containing fly ash (61-60) Sept. 1964 1109

Current Reviews Index

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, V. 61, January 1964 to December 1964

A

AASHO road test—Summary report ... 120

Absorption—Fine lightweight aggregate—Testing techniques ... 124

Acid—Attack—Behavior of concrete ... 1484

Addenda and Commentary to the Seventh Edition of the Specifications of the German Council for Reinforced Concrete. Verlag von Whilhelm Ernst & Sohn ... 1056

Adhesives: Past, Present and Future. American Society for Testing and Materials ... 1338

Adhesives
-Structural ... 251
-Types ... 479

Admixture
-Cement paste and concrete properties modified by—Review ... 1155
-Concrete construction ... 357
-Silicones ... 1049

Advanced Reinforced Concrete. McGraw-Hill Book Co. ... 901

Aggregate
-Blast furnace slag—Mechanical properties ... 909
-Chert gravel—Factors affecting freezing and thawing resistance ... 1049
-Deleterious—Identifying ... 1572
-Geometric properties—Graphical analysis ... 1053
-Road—Evaluation methods ... 616
-Shape—Strength of concrete and mortars affected by ... 904
-Survey on types, properties, and applications ... 1338
-Water vapor transmission effect ... 1342

Air entrainment—Durability of exposed aggregate panels affected by ... 126

Antenna counterweight—Special concrete for fill ... 470

Apartment building
-Precast units—Construction at fast pace ... 1334
-Prestressed elements—Construction ... 1149
-Reinforced concrete framed ... 358

Arch
-Circular—Lateral stability ... 1153
-Circular of constant section—Warping ... 118
-Reinforced and hinged—Dynamic nonlinear response ... 1043

Arch bridge
-Examples ... 1562
-Formwork ... 113
-Repair ... 897

Arches, Continuous Frames, Columns, and Conduits. University of Illinois Press ... 361

Architectural concrete
-Construction practice ... 470
-Naturbetong ... 1565
-Types of finishes ... 1041

Architectural Engineering—New Structures. McGraw-Hill Book Co. ... 1488

Architecture—Art—Value of using concrete ... 1488

ASTM
-Fire test methods—Symposium ... 1055
-Standards—1963 supplement to Part 4 ... 624

ASTM Standards, 1964. American Society for Testing and Materials ... 1488

ASTM Standards in Building Codes. American Society for Testing and Materials ... 367

B

Base—Railroad track—Reinforced concrete block ... 1341

Basic Design and Construction in Prestressed Concrete. Chatto & Windus ... 619

Batching—Plant—Standards ... 1344

Beam
-Circular ring—Torsion moments—Elastic foundations ... 901
-Column connection—Tests ... 619
-Composite—Horizontal shear resistance ... 360
-Curved—Numerical solution ... 117
-Design—Energy and variation methods compared ... 248
-Edge—Hyperbolic paraboloid shells ... 1566
-Finite—Resting on soil—Approximate solution ... 1152
-Flanged—Moment distribution factors ... 473
-Lightweight aggregate—Behavior in flexure ... 1486
-Limit design ... 360
-Multiple elastic supports—Method of obtaining influence lines ... 613
-Partially prestressed—Moment curvature relationships ... 749
-Prestressed and reinforced—Comparison under repeated loading ... 623
-Rectangular—Without web reinforcement—Combined bending and torsion influence ... 622
-Reinforced—Bending—Upper limit degree of reinforcement determined ... 746
-Reinforced—Bending tests ... 751
-Reinforced—Error statistics ... 746
-Reinforced—Fatigue behavior ... 256
-Reinforced—Fatigue tests ... 1577
-Reinforced—Stirrup proportioning ... 901
-Reinforced—Shear failure mechanisms ... 1157
-Reinforced—Shear and bending—Internal forces determined ... 1042
-Reinforced—Shearing resistance determined—Truss mechanism ... 901
-Sections—Precast ... 1482
-Shearing stresses ... 472
-Stiffening—Skewed slab bridge—Stresses ... 1576

Bending
-Review ... 124
-Tests—Job quality control ... 1157

Biaxial loading—Deformation behavior ... 1576

Blasting—Tunnel and chamber construction—Effects ... 612

Block—Large—Production ... 471

Bond
-High-strength steel ... 1158
-New concrete to old—Methods ... 114
-Pavement resurfacing—Low-shrinkage admixture ... 612

Bridge
-Calder Motorway, England—Design competition ... 1149
-Calder Motorway, England—Two winning designs ... 1149
-Chesapeake Bay bridge-tunnel—Trestle construction ... 897
-Composite beam—Analysis by orthotropic plate theory ... 362
-Composite box girder ... 469
-Continuous—Elastic supports ... 1473
-Deck—Casting of ... 246
-Deck—Monolithic with piers—Influence lines determined ... 1473
-Deck—Pavement—Waterproofing ... 475
-Deck—Repair techniques ... 1040
-Deck—Resurfaced with epoxy cement and sand ... 358
-Deck—Superior durability ... 743
-Deck surfaces ... 906

INDEX to News Letter

From JOURNAL OF THE AMERICAN CONCRETE INSTITUTE, V. 61, Jan. 1964 to Dec. 1964

An index to technical feature material published in the "News Letter" for readers who retain the monthly issues. The "News Letter" sections of the JOURNAL are not a part of or bound with Proceedings.

Bonding concrete piles—Epoxy adhesive Sept. 1964 NL 32

Building research—Australia June 1964 NL 3

CEB code recommendations—Translation Oct. 1964 NL 29

Chesapeake Bay bridge-tunnel—Construction July 1964 NL 3

Committee Europeen du Beton (CEB)—Translation of code recommendations Oct. 1964 NL 29

Concrete bridge—First in country Sept. 1964 NL 12

IBM building—Construction—Sydney Aug. 1964 NL 6

Masonry wall reinforcing—Investigation July 1964 NL 15

ERRATA AND ADDENDA

The following additions and corrections should be made in the indicated papers and reports of Proceedings, V. 61, January through December 1964.

* * * *

The following corrections should be made in "Review of Code Requirements for Torsion Design," which appeared in the January 1964 JOURNAL.

p. 8—in line 8 omit "GSA," and in line 9 replace "four" with "three."

p. 8—in line 10 "French code" should be replaced by "GSA and French codes" and in line 11 replace "this" with "the latter."

* * * *

The following corrections should be made in the Concrete Briefs item "Ultimate Moment Resisting Capacity of Reinforced Concrete Sections" which appeared in the January 1964 JOURNAL.

p. 104—in the notation change "A_s" and "P_b" to "A_s'" and "p_b," respectively. Also add "A_s = area of tensile reinforcement." In Eq. (2), change "P_b" to "p_b."

* * * *

The following corrections should be made in "Economic Aspects in the Design of Some Reinforced Concrete Structural Members," which appeared in the April 1964 JOURNAL.

p. 419—in the synopsis line 4 change "T-beams" to "T-slabs."

p. 419—in the 4th line of the synopsis "rectangular slabs" should be changed to "rectangular beams."

p. 419—in the synopsis line 6 change "concentrated" to "concentric."

p. 437—in Eq. (33a) the first parenthetical term should read:

$$\left(\frac{16}{15}\, d_r - \frac{8}{7}\, d_s\right)$$

and omitting the d_s outside the parenthetical expression.

In the same equation the second parenthetical term should read:

$$\left(d_r + \frac{b'}{2}\right)$$

again omitting the

$$\frac{b'}{2}$$

outside the parenthetical expression.

p. 439—in the 4th line of the Spanish synopsis "losas rectangulares" should be changed to "vigas rectangulares."

p. 440—in the 4th line of the French synopsis "rectangulaires" should be changed to "poutres rectangulaires."

p. 440—in the 4th line of the German synopsis "rechteckigen Platten" should be changed to "rechteckigen Trägern."

* * * *

The following correction should be made in "Glossary of Terms on Cement and Concrete Technology—Increments No. 2, 3, and 4," which appeared in the May, 1964, JOURNAL.

p. 505—the definitions given under the terms "Vent pipe" and Void-cement ratio" should be interchanged.

* * * *

In some copies of the June 1964 JOURNAL, a misprint occurs in "Approximate Analysis of Shear Walls Subject to Lateral Loads."

p. 731—Eq. (A6) should read:

$$C = \frac{1}{\sinh \alpha H}\left[\frac{W}{2l}\left(\frac{H}{2}+t\right)+\frac{2\beta}{\alpha^4}(\cosh \alpha H - 1) - \frac{\beta}{\alpha^2} H^2\right]$$

* * * *

The following corrections should be made in "Load-Moment-Curvature Characteristics of Reinforced Concrete Cross Sections," which appeared in the July, 1964, JOURNAL.

p. 766—in Fig. 2, under the first two strain and stress diagrams change "C-E" to "C-D" and "B-C-D" to "B-C-E."

p. 771—in the first line change "Fig. 6" to "Fig. 5."

* * * *

The following corrections should be made in "Suggested Design of Joints and Connections in Precast Structural Concrete," which appeared in the August 1964 JOURNAL.

p. 933—in the fourth line of Section 302.3.2, after ". . . connection" add "(see Fig. 302.3.2)."

p. 933—in the third line of Section 302.5, delete "(see Fig. 302.5)."

p. 933—in the caption to the figure, change "302.5" to "302.3.2."

p. 934—in Lines 12, 13, and 14, delete the entire last sentence which begins "The effect of the joint . . ." and transpose it in its entirety up to Line 5 and insert it following ". . . by working loads."

* * * *

The following corrections should be made in "Concrete Shell Structures—Practice and Commentary," which appeared in the September, 1964, JOURNAL.

p. 1102—in Lines 12 and 13, delete "*F*" and all of the sentence following ". . . deflections."

* * * *

The following corrections should be made in "Concrete Shell Structures Practice and Commentary" which appeared in the September JOURNAL.

p. 1103—the subheading "Proportioning" should be made a main heading and numbered "6."

p. 1104—in the main heading "6. CONSTRUCTION," change "6" to "7."

p. 1105—in the main heading "7. MODELS," change "7" to "8."

* * * *

The following correction should be made in the discussion of "Review of Code Requirements for Torsion Design," which appeared in the September 1964 JOURNAL.

p. 1172—the sentence in line 2, second full paragraph, should read: "A new updated GSA Structural Engineering Handbook, recently (1964) published, does *not* include a discussion on analysis and design of structures subject to torsion."

* * * *

The following correction should be made in "Behavior of Mortar Filled Steel Tubes in Compression" which appeared in the October 1964 JOURNAL:

p. 1278—in Eq. (5) change "$E_c -$ " to "$E_c =$ "

* * * *

The following corrections should be made in "Prismatic Folded Plates—A Simplified Procedure of Analysis," which appeared in the October, 1964, JOURNAL.

p. 1288—change Line 10 to read: $P_{n+1} = F_{n+1}, n - F_{n, n+1}$

p. 1293—in the line above Eq. (24'), change "Eq. (15)" to "Eq. (24)."

p. 1299—in Table 2, second column from the right, subcolumn R_2, Line 1, change "−1,120" to "+1.120."

p. 1299—in Table 2, extreme righthand column, 5th line below "Total distribution," change "10^3 . . ." to "-10^3 . . ."

p. 1299—in Table 2, third column from right, line numbered "7", delete the figures −31.263, 165.672, and −116.182 and insert them in Line 8 below.

p. 1302—in Notation, change "v" to "V."

* * * *

The following corrections should be made in "Stress Distribution, Crack Patterns, and Failure Mechanisms of Reinforced Concrete Members," which appeared in the December 1964 JOURNAL.

pp. 1541 and 1547—Fig. 5a and 12a should be transposed, respectively.

* * * *

The following correction should be made in discussion of "Low Pressure Steam Curing" which appeared in the Part 2, March 1964 JOURNAL.

p. 1961—in Table C, line 2 of the horizontal column beginning "Direct heat . . ." change "212 F (100 C)" to "178 F (80 C)".

p. 1961—in Table C, in the horizontal column beginning "Indirect heat . . ." change "178 F (80 C)" to "212 F (100 C)".

CONTENTS—PROCEEDINGS V. 61

1964

From January 1964 JOURNAL

61-1 **Review of Code Requirements for Torsion Design** 1
Gordon P. Fisher and Paul Zia
Discussion (September 1964 JOURNAL) 1163

61-2 **Tables for Concrete Mix Proportioning** 45
Sandor Popovics
Discussion (September 1964 JOURNAL) 1175

61-3 **Strength of the Compression Slab of T-Beams Subject to Simple Bending** 57
Gottfried Brendel
Discussion (September 1964 JOURNAL) 1183

61-4 **Rapid Field Assessment of Strength of Concrete by Accelerated Curing and Schmidt Rebound Hammer** 77
C. A. P. Boundy and G. Hondros
Discussion (September 1964 JOURNAL) 1185

61-5 **Helicoidal Staircase Study** 85
A. R. Cusens and Supachai Trirojna
Discussion (September 1964 JOURNAL) 1191

Concrete Briefs

Ultimate Moment Resisting Capacity of Reinforced Concrete Sections by K. R. Patel 103

A Simple Penetration Test Using Vibrations by Karol Komlos 108

Experiences with the Kelly Ball Test
Discussion by V. M. Malhotra 111
Author's Closure by Karol Komlos 111

Current Reviews 113

From February 1964 JOURNAL

61-6 **A Guide for Determination of Bond Strength in Beam Specimens** 129
ACI Committee 408

61-7 **Phoenix Airport Terminal Building—A Prestressed Challenge** 137
Walter E. Riley

61-8 **An Investigation of Standard Concrete Cylinders** 151
Gilbert R. Williamson
Discussion (September 1964 JOURNAL) 1197

61-9 **Method for Design of Flat Slabs Without Drop Panels** 155
Joseph B. Yesselman
Discussion (September 1964 JOURNAL) 1201

61-10 **Electrochemical Behavior of Steel in Concrete** 171
D. A. Hausmann

61-11 **Foundation Bolts for Heavy Drives** 189
Chesman A. Lee
Discussion (September 1964 JOURNAL) 1203

61-12 **Stress-Strain Relations for Concrete Under Cyclic Loading** 195
B. P. Sinha, Kurt H. Gerstle, and Leonard G. Tulin

61-13 **Time-Dependent Effects in Composite Concrete Beams** 213
Dan E. Branson
Discussion (September 1964 JOURNAL) 1207

61-14 **Flexure of Perpendicular Mutually Supported Cantilevers** 231
Panayiotis J. Spyropoulos
Discussion (September 1964 JOURNAL) 1211

61-15 **A Method for Determining Deflections in Beams of Variable Stiffness** 239
Valeriu Petcu

Current Reviews 245

From March 1964 JOURNAL

61-16 **Precast Concrete Toroidal Vault** 257
Richard R. Bradshaw

61-17 **Cracking in Norfolk Dam** 265
F. W. Sims, James A. Rhodes, and Ray W. Clough
Discussion (September 1964 JOURNAL) 1213

61-18 **Strength of Concrete Test Cylinders Cast in Waxed Paper Molds** 287
A. R. Cusens
Discussion (September 1964 JOURNAL) 1219

61-19 **Biaxial Eccentricities in Ultimate Load Design** 293
A. Aas-Jakobsen

61-20 **Dynamic Tests of Reinforced Concrete Columns** 317
Kenneth F. Reinschmidt, Robert J. Hansen, and Cheng Y. Yang

61-21 **Increasing Tensile Strength of Terrazzo** 335
A. M. Neville
Discussion (September 1964 JOURNAL) 1225

61-22 **Equation for the Stress-Strain Curve of Concrete** 345
Prakash Desayi and S. Krishnan
Discussion (September 1964 JOURNAL) 1227

61-23 **On the Formula for Spiral Reinforcement** 351
Ti Huang
Discussion (September 1964 JOURNAL) 1241

Current Reviews 355

From April 1964 JOURNAL

61-24 **Tests for Precast Wall Panels** 369
Subcommittee V, ACI Committee 533
Discussion (December 1964 JOURNAL) 1581

61-25 **Prefabricated Building Made of Triangular Prestressed Components** 383
Zenon A. Zielinski

61-26 **Ultimate Strength with High Strength Reinforcing Steel with an Indefinite Yield Point** 399
Nripendra C. Sinha and Phil M. Ferguson
Discussion (December 1964 JOURNAL) 1583

61-27 **Economic Aspects in the Design of Some Reinforced Concrete Structural Members** 419
Dudley G. Norman

61-28 **The Riddle of Shear Failure and Its Solution** 441
G. N. J. Kani

Discussion (December 1964 JOURNAL) 1587

Current Reviews 469

From May 1964 JOURNAL

61-29 **Responsibility in Concrete** 481
Roger H. Corbetta

61-30 **Glossary of Terms on Cement and Concrete Technology—Increments No. 2, 3, and 4** 487
ACI Committee 116

61-31 **Construction of a Buttressed Dome Segment** 509
Andrew R. Nasser

61-32 **Influence of Ties on the Behavior of Reinforced Concrete Columns** 521
James F. Pfister
Discussion (December 1964 JOURNAL) 1637

61-33 **Computer Analysis of Cylindrical Shells** 539
A. C. Scordelis and K. S. Lo
Discussion (December 1964 JOURNAL) 1639

61-34 **The Restrained Long Concrete Column As A Part of a Rectangular Frame** 563
John E. Breen and Phil M. Ferguson

61-35 **Stresses in End Blocks of a Post-Tensioned Prestressed Beam** 589
Ti Huang
Discussion (December 1964 JOURNAL) 1645

Problems and Practices
Selecting Reinforcing for Bond Requirements
by Allen J. Hulshizer 603

Current Reviews 611

From June 1964 JOURNAL

61-36 **Check List for Batch Plant Inspection** 625
Lyman S. Bray and Oswin Keifer, Jr.
Discussion (December 1964 JOURNAL) 1647

61-37 **Shear Strength of Reinforced Structural Lightweight Concrete Slabs** 643
Eivind Hognestad, Richard C. Elstner, and J. A. Hanson

61-38 **Tensile Strength of Concrete Affected by Uniformly Distributed and Closely Spaced Short Lengths of Wire Reinforcement** 657
James P. Romualdi and James A. Mandel
Discussion (December 1964 JOURNAL) 1651

61-39 **Chimney Foundations** 673
John W. Smith and Max Zar
Discussion (December 1964 JOURNAL) 1657

61-40 **Behavior of Concrete Columns Reinforced with High Strength Steels** 701
Claudio E. Todeschini, Albert C. Bianchini, and Clyde E. Kesler

61-41 **Approximate Analysis of Shear Walls Subject to Lateral Loads** 717
Riko Rosman
Discussion (December 1964 JOURNAL) 1659

Current Reviews 735

From July 1964 JOURNAL

61-42 **ACI Standard Recommended Practice for Concrete Inspection (ACI 311-64)** 753
ACI Committee 311

61-43 **Slip Forming New York State World's Fair Pavilion** 755
Maurice Madison
Discussion (March 1965 JOURNAL) 1669

61-44 **Load-Moment-Curvature Characteristics of Reinforced Concrete Cross Sections** 763
E. O. Pfrang, C. P. Siess, and M. A. Sozen
Discussion (March 1965 JOURNAL) 1673

61-45 **Replacement of Lightweight Aggregate Fines with Natural Sand in Structural Concrete** 779
J. A. Hanson

61-46 **Stresses in Point Supported Composite Walls** 795
Saki Rosenhaupt
Discussion (March 1965 JOURNAL) 1685

61-47 **Durability and Behavior of Pretensioned Beams** 811
Edwin C. Roshore

61-48 **Free-Standing Stairs** 847
Franz Sauter
Discussion (March 1965 JOURNAL) 1689

61-49 **Rate of Loading Effect on Moment-Curvature Relation in Prestressed Concrete Beams** 871
I. O. Oladapo

Problems and Practices
Design of Isolated Square Column Footing
by Carlos Rodriguez 889

Current Reviews 891

From August 1964 JOURNAL

61-50 **Glossary of Terms on Cement and Concrete Technology—Increment No. 6** 913
ACI Committee 116

61-51 **Suggested Design of Joints and Connections in Precast Structural Concrete** 921
ACI-ASCE Committee 512
Discussion (March 1965 JOURNAL) 1697

61-52 **Shear Bond Strength Between Coarse Aggregate and Cement Paste or Mortar** 939
Michael A. Taylor and Bengt B. Broms
Discussion (March 1965 JOURNAL) 1705

61-53 **Flat Plate Structures** 959
John F. Brotchie and J. J. Russell
Discussion (March 1965 JOURNAL) 1715

61-54 **Flexural Cracking in Two-Way Concrete Slabs Reinforced with High Strength Welded Wire Fabric** 997
Edward G. Nawy
Discussion (March 1965 JOURNAL) 1737

61-55 **Continuity of Prismatic Northlight Sheds Through Their Window Planes** 1009
Amin Ghali

61-56 **Response of Singly Reinforced Beams to Cyclic Loading** 1021
B. P. Sinha, Kurt H. Gerstle, and Leonard G. Tulin

Current Reviews 1039

From September 1964 JOURNAL

61-57 **Proposed Revision of Recommended Practice for Evaluation of Compression Test Results of Field Concrete (ACI 214-57)** **1057**
ACI Committee 214
Discussion (March 1965 JOURNAL) **1741**

61-58 **Proposed Revision to ACI Standard—Manual of Standard Practice for Detailing Reinforced Concrete Structures (ACI 315-57)** **1073**
ACI Committee 315
Discussion (March 1965 JOURNAL) **1751**

61-59 **Concrete Shell Structures—Practice and Commentary** **1091**
ACI Committee 334
Discussion (March 1965 JOURNAL) **1755**

61-60 **Carbonation and Shrinkage Studies of Non-Plastic, Expanded Slag Concrete Containing Fly Ash** **1109**
George W. Washa and Richard L. Fedell
Discussion (March 1965 JOURNAL) **1767**

61-61 **Damping Characteristics of Prestressed Concrete** **1125**
Joseph Penzien

Current Reviews **1149**

Discussion (Listed above with papers to which it pertains) **1161**

From October 1964 JOURNAL

61-62 **Engineering Features of Free-Form Concrete Thin Shell for Eastman Kodak Pavilion** **1249**
Lev Zetlin

61-63 **Study of the Mechanism Through Which Calcium Chloride Accelerates the Set of Portland Cement** **1261**
Arnold M. Rosenberg

61-64 **Behavior of Mortar Filled Steel Tubes in Compression** **1271**
Harold J. Salani and James R. Sims
Discussion (June 1965 JOURNAL) **1773**

61-65 **Prismatic Folded Plates—A Simplified Procedure of Analysis** **1285**
Eliahu Traum
Discussion (June 1965 JOURNAL) **1781**

61-66 **Behavior of Reinforced Concrete Frames Subjected to Repeated Reversible Loads** **1305**
Vitelmo V. Bertero and George McClure
Discussion (June 1965 JOURNAL) **1793**

Current Reviews **1331**

From November 1964 JOURNAL

61-67 **Inspection and Maintenance of Concrete in Service** 1345
I. D. MacKenzie

61-68 **Dynamic Properties of Reinforced and Prestressed Concrete Structural Components** 1359
Merlin L. James, Loren D. Lutes, and Gerald M. Smith
Discussion (June 1965 JOURNAL) 1799

61-69 **Horizontal Shear Connections Between Precast Beams and Cast-in-Place Slabs** 1383
J. C. Saemann and George W. Washa
Discussion (June 1965 JOURNAL) 1807

61-70 **Tests of Structural Bond of Masonry Mortars to Concrete Block** 1411
R. E. Copeland and Edwin L. Saxer

61-71 **Ultimate Strength in Combined Bending and Torsion of Concrete Beams Containing Only Longitudinal Reinforcement** 1453
Hans Gesund and Lawrence A. Boston
Discussion (June 1965 JOURNAL) 1811

Current Reviews 1473

From December 1964 JOURNAL

61-72 **Rigid Frame Railroad Bridges in Japan** 1489
Yoshiji Matsumoto

61-73 **Ultimate Strength in Combined Bending and Torsion of Concrete Beams Containing Both Longitudinal and Transverse Reinforcement** 1509
Hans Gesund, Frederick J. Schuette, George R. Buchanan, and George A. Gray
Discussion (June 1965 JOURNAL) 1821

61-74 **Stresses Around Circular Inclusions Due to Thermal Gradients with Particular Reference to Reinforced Concrete** 1523
J. Dundurs and O. C. Zienkiewicz

61-75 **Stress Distribution, Crack Patterns, and Failure Mechanisms of Reinforced Concrete Members** 1535
Bengt B. Broms
Discussion (June 1965) 1841

Problems and Practices
Design of Isolated Square Column Footing by Manuel Portal 1559

Discussion (Listed above with papers to which it pertains) 1579
